use cases ↘

MANAGED SERVICE PROVIDERS

MSPs can use Livewire's VDI solution to offer clients reliable, secure virtual desktops. This allows efficient remote management of multiple infrastructures and centralized oversight from a single dashboard, streamlining operations and enhancing service delivery.

INTERNET TELEPHONY SERVICE PROVIDERS

ITSPs can use our VDI solution to deliver high-quality voice and video services, integrating seamlessly with existing platforms. It ensures superior security and offers flexibility to adjust to changing user demands.

SYSTEM INTEGRATORS

System Integrators can use Livewire's VDI for custom IT solutions, integrating it easily with third-party software. This ensures smooth transitions, enhances project outcomes, and meets specific industry requirements effectively.

VALUE-ADDED RESELLERS

Value-Added Resellers can bundle Livewire's VDI with hardware and services to offer a comprehensive package. This enhances their product line, helps clients reduce costs, and improves efficiency. VARs can also leverage community and support resources for exceptional service.
